SUMMARY

Detail-oriented MERN Full Stack Developer with hands-on experience architecting full-stack web applications. Skilled in designing responsive UIs and engineering RESTful APIs using Node.js to improve system efficiency. Focused on delivering scalable, user-friendly applications by orchestrating MySQL and MongoDB for real-time data integrity.

SKILLS

Languages: JavaScript , HTML5, CSS3.

Frontend: React.js, Bootstrap, Tailwind CSS, Responsive UI Design.

Backend: Node.js, Express.js, RESTful API Development.

Databases: MySQL ,MongoDB.

Tools & DevOps: Git, GitHub, VS Code, Postman, CRUD Operations.

PROJECTS

Equipment Rental Web Application

- Architected a full-stack rental platform serving multiple users with real-time booking functionality.
- Designed 10+ responsive UI components using Bootstrap, increasing mobile usability by 30%.
- Implemented RESTful APIs handling CRUD operations for 3+ modules, ensuring seamless data flow between users and inventory.
- Systematized MySQL database structures to manage 100+ transaction records with high data accuracy.
- Optimized admin workflow through real-time inventory management, significantly reducing manual oversight.

StayEase – Hotel Room Booking Web Application

- Engineered a responsive hotel booking platform featuring a secure, encrypted authentication system.
- Authored backend services to synchronize real-time date selection and room availability for 15+ locations.
- Orchestrated dynamic data management using MongoDB, supporting concurrent booking entries for multiple users.
- Constructed a scalable architecture designed to support future high-volume features like payment processing and booking history

EDUCATION

Bachelor of Computer Application (BCA) | 2021 – 2024

Mangalore University, St Philomena College (Autonomous), Puttur

CERTIFICATES

- MERN / Fullstack Development Course - (Currently Pursuing)
